

Outstanding elegance and refinement

The AS365 N3 is at the forefront of aircraft development, offering a range of rare qualities with its advanced and innovative design. The powerful engines enable a fast cruise speed, incredible range and endurance. Its low internal cabin noise and vibration levels contribute to the exceptional comfort of the passengers.

Outstanding elegance and refinement

The wide unobstructed cabin offers VIP accommodations for up to seven passengers. Access to the cabin is easy through wide lateral doors with convenient boarding steps. In addition to the low vibration level and the great stability, passengers will appreciate the panoramic view offered by the large windows and the feeling of a wide open space.

A natural elegance and refined atmosphere created by the use of the best materials.
