

Stout and safe

With well proven technology and a fleet family that has logged millions of flight hours, the AS365 N3 is one of the safest medium size helicopter in its class. This aircraft is equipped with two powerful Turbomeca Arriel 2C turbine engines including a Full Authority Digital Engine Control (FADEC) system in order to provide optimal level of safety. Furthermore, the four-axis digital autopilot considerably reduces pilot workload to enhance safety in all weather conditions. Composite main rotor blades are corrosion proof and ensure an extremely long life-time.

When it comes to mission availability, the AS365 N3's lower level of maintenance per flight hour is acknowledged by operators as a key feature of this aircraft to shuttle between land and rigs.

Stout and safe

The wide unobstructed cabin can accommodate up to 11 passengers + 2 pilots in comfort. The cabin is easily accessed by large forward doors. In addition to the low vibration level, passengers will appreciate the panoramic visibility offered by the large windows.

Optional equipment available:

- Radar altimeter, AVAD, TCAS
- HEEL (emergency exit lighting)
- Four-axis autopilot
- HUMS (Health and Usage Monitoring System)
