

Rapid and reliable

The AS365 N3 offers exceptional speed and endurance to perform all kind of police operations ranging from patrol, airborne surveillance, SAR and special operations. The power of the 2 Turbomeca Arriel 2C engines provides higher reliability and higher safety margins than any other aircraft in this category. The AS365 N3's compact size and its exceptional maneuverability allows police forces to operate in the most confined areas. The low vibration level enables the installation of all the equipment necessary for law enforcement missions and provides the best comfort for long patrols.

The simple design of the AS365 N3 allows a reduced and easy maintenance to enhance its availability rate and low operating costs.

Rapid and reliable

The AS365 N3 can be equipped with a wide range of certified equipment to perform all police operations with optimal efficiency.

This includes:

- Surveillance
