

## Discreet protection

The EC130 B4 is mission ready for all law enforcement operations, in the most rapid conditions thanks to its very quick and easy automatic engine start up sequence. Its high performance and its very high rate of availability obtained through an easy and affordable maintenance concept make it always ready for the most demanding police missions. The exceptional visibility added to the spacious unobstructed cabin enable the police to offer a very large field of view and to install all their needed equipment. And its incredibly discrete noise level  $-7$  dB under ICAO limits – will allow efficient surveillance operations.

# Discreet protection

The pilot will benefit from the aid of the VEMD (Vehicle and Engine Multifunction Display) to focus only on his target, ensuring the crew optimal safety.

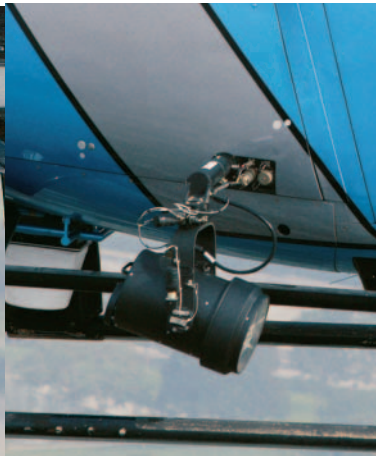

The EC130 B4 cockpit provides enough space for the installation of a fully integrated observer's tactical instrument and equipment console.
